ARCHITECT-ENGINEER QUALIFICATIONS OMB No.: 9000-0157

An architect is a person who plans, designs, and reviews the construction of buildings. To practice architecture means to provide services in connection with the design of buildings and the space within the site surrounding the buildings, that have as their principal purpose human occupancy or use. Etymologically, architect derives from the Latin architectus, which derives from the Greek (arkhi ...

Architect - Wikipedia

A professional who designs buildings or other structures, or who prepares plans and superintends construction. Plato made the causes of things to be matter, ideas, and an efficient architect.; A person who plans, devises or contrives the achievement of a desired result.
